I have the career I've always dreamed of – but what if love is the price for it?

Lily

After a trip from hell I'm looking forward to a meeting new and old friends at a the music business conference in Tokyo. The only downside? Adam Walker.

Annoyingly handsome and charming, he weasels his way from distant acquaintance to friend... and then more. Being with him reminds me that there's more to life than my job – but what if being with him threatens everything I've worked so hard for?

Adam

Ever since our parents died, I've been the head of the family; keeping the company they created running and raising my siblings. With my youngest sister at college, I thought all the voices demanding attention would subside and I could finally breathe again. Instead, I find myself drowning.

But Lily? She breaks through the noise and pulls me to the surface. She's fierce like a current and before I know it, she's the one keeping me afloat.

She might be my rival but what if she could be more?
